**Parsec Telesystems** is an advanced application development partner under the **CDN (Cisco Developer Network)** program. It specializes in ready-to-use applications (**MARS & INTELLICALL**), custom built applications and application integration to Cisco collaboration products.

Parsec offers end-to-end and scalable professional services for application integration on various **Cisco tools/SDKs/APIs**:

- ⊕ **WebEx API**
- ⊕ **JTAPI SDK**
- ⊕ **Jabber Web SDK**
- ⊕ **Administration XML (AXL) APIs**
- ⊕ **Presence (CUPS) APIs**
- ⊕ **Cisco Unified Routing Rules Interface (CURRI)**
- ⊕ **Extension Mobility API**
- ⊕ **RIS Port API**
- ⊕ **Java Media Framework (JMF) API**

**Highlights**

- ⊕ **Parsec is a preferred vendor for Cisco Jabber integration services:**  
<http://developer.cisco.com/web/jabber-developer/custom-integration>
- ⊕ **Customer installations spread across USA, UK, India & MENA Region**
